

### The new school year started 11 January 2016 at the Mchungaji Mwema (Good Shepherd) Secondary school in Kagera.

All Form 2 students passed their national exams last year and will move into Form 3. We are delighted with their achievement. This year there are 180 students from Form 1 – Form 4 and we wish them well at the start of this new school year!

### Construction of Boarding houses continues

The construction of the two Boarding Houses is progressing well. The first Boarding House (pictured below) is almost complete. This will accommodate 40 students.

The second Boarding House (pictured below) should be completed in the next month.

**Thank you so much.  
We are incredibly grateful for your support of EdAid!**

### St John's University of Tanzania in Dodoma, needs your support to build a secure fence

To improve student safety, security, and to model good land conservation and farming techniques the university needs to build a 2.4km fence around the campus. NZ\$81,000 needs to be raised to complete the first part of the fence. Please go to [www.edaid.org](http://www.edaid.org) or [givealittle.co.nz](http://givealittle.co.nz) to donate.

*No secure fences as students walk to class*

Our volunteer **EdAid Board** (pictured below) met in March for the latest Board meeting. As well as continuing their review of existing projects, they are currently planning the charity's future strategic direction.
